Dheeraj Kumar Mani

Senior iOS / macOS Developer

Odisha, India • +91-700-896-8925 • dheerajk.mani.dev@gmail.com • LinkedIn • Portfolio

PROFESSIONAL SUMMARY

Senior iOS / macOS Developer with 9+ years of experience building and maintaining applications across Apple platforms. Experienced in Swift and Objective-C, with hands-on development using SwiftUI, UIKit, and AppKit. Skilled in application architecture, API integration, debugging, performance optimization, and release management. Previously led a five-person iOS development team and currently works on macOS backup and cloud-drive functionality.

TECHNICAL SKILLS

Platforms: iOS, iPadOS, macOS

Programming Languages: Swift, Objective-C, C, C++

UI & Frameworks: SwiftUI, UIKit, AppKit, Auto Layout, AVFoundation

Architecture: MVC**,** MVVM

Concurrency: Swift Concurrency (async/await), Grand Central Dispatch (GCD), OperationQueue

Networking & APIs: URLSession, REST APIs, GraphQL, JSON/XML parsing

Data & Notifications: Core Data, Apple Push Notification service (APNs)

Engineering Practices: Memory management, SOLID principles, CI/CD

Release & Delivery: Build and release workflows, App Store submission

Device Management: Jamf, Microsoft Intune

Tools: Xcode, Git

RELEVANT WORK EXPERIENCE

Senior Programmer Analyst • **IDrive Software, Bangalore, India** • *November 2023 – Present*

- Implemented macOS SMB network-share integration for backups, including device discovery, credential-based remounting, and automatic unmounting.
- Developed IDrive Cloud Drive folder-selection UI and logic, coordinating with the Sync team to keep selected folders available on the device.
- Implemented Full Disk Access (FDA) in IDrive and IDriveDaemon to support access to protected files and folders during backup and restore.
- Updated the macOS UI in response to system preference changes and delivered UI enhancements and bug fixes.

Lead iOS Developer • **Muvi Entertainment, Bhubaneswar, India** • *June 2021 – October 2023*

- Led a five-person iOS team, coordinating with backend, frontend, and QA teams to deliver features.
- Optimized OTT home-screen scrolling to reduce UI lag through improved cell reuse, image loading, API handling, and rendering.
- Developed adaptive iPhone and iPad layouts using Auto Layout.
- Implemented Picture-in-Picture playback, audio/video autoplay, and queued downloads with offline playback and playback-position restoration.
- Managed the iOS release lifecycle, from build preparation and upload through App Store review and approval.

Senior iOS Developer • **Gifskey, Hyderabad, India** • *January 2019 – January 2020*

- Served as the sole iOS developer for Wysh and WyshCeleb, owning end-to-end development of customer- and celebrity-facing features.
- Developed celebrity discovery, personalized video-wish requests, payment integration, push notifications, and video-recording workflows.
- Implemented Core Data-based local recording storage and queued individual and bulk video uploads, resuming pending uploads when connectivity was restored.
- Built responsive interfaces using Auto Layout and implemented video delivery and recipient notification workflows.

RELEVANT WORK EXPERIENCE (CONTINUED)

iOS Developer • **Cytrion Software Solutions, Hyderabad, India** • *July 2017 – December 2018*

- Developed Nischint for Education (N4E) features in Objective-C, including child-device location tracking, geofencing alerts, and app-management UI for submitting restriction requests to MDM.
- Developed askavenue features in Swift, including property search, listings, favorites, maps, and Atlas SDK-based chat with push notifications.
- Implemented Core Data persistence, paginated API integration, multilingual support, custom animations, and separate iPhone and iPad layouts; also contributed branding updates for ask RE/MAX.

iOS Developer • **3 Roots Studios, Hyderabad, India** • *November 2015 – June 2017*

- Maintained iOS applications through bug fixes and UI improvements, ensuring consistent logo and icon alignment across iPhone and iPad layouts.
- Implemented language selection and localization functionality to change the language displayed in the app.

SELECTED PROJECTS

IDrive (Swift, Objective-C) — Cloud backup and restore solution for macOS and other platforms.
https://www.idrive.com/

Muvi Onyx (Swift) — Developed an OTT preview app that enables customers to experience a fully functional streaming app using their own content.
https://itunes.apple.com/us/app/muvi-onyx/id1261717441

Batting Studio (Freelance • Swift) — Developed an iOS cricket training app from scratch, owning architecture, API integration, and App Store releases. Built responsive UI layouts using Auto Layout, implemented smooth animations, integrated native video playback and search, and developed in-app purchases.

Wysh & Wysh Celeb (Swift) — Two-sided platform for personalized celebrity video requests, recording, and delivery.

EDUCATION

B.Tech. in **Electronics & Communication Engineering**
Gandhi Institute of Engineering & Technology, Gunupur, Odisha, India • BPUT • *2014*

Intermediate in **Science**
Royal College of Science & Technology, Bhubaneswar, Odisha, India • CHSE • *2010*

High School
Jawahar Navodaya Vidyalaya, Balangir, Odisha, India • CBSE • *2008*

LANGUAGES & INTERESTS

Languages: English (Proficient) • Hindi (Proficient)

Interests: Portrait Drawing • Chess • Sudoku
